**Subject:** Bible in Farsi

Hi Megan,

I was just thinking about what you might need at church Sunday. It might be nice for you to have a Bible in your Farsi language so it will be easier for you to understand what the pastor is reading, saying. I read my Bible on my smartphone. I like it better and it is way more convenient. You have a smartphone right? Do this:

1. Get the YouVersion Bible from the Play Store. Type in "YouVersion" in the search bar-  
Click on "Install"

a) Or, you can get it by just going to <http://www.bible.com> and then click on "Download the Free Bible App"

#### INSTALL THE APP NOW

The Bible App is completely free, with no advertising and no in-app purchases. It's been installed on this many unique devices (so far):

259,688,598

[Download the Free Bible App](#)

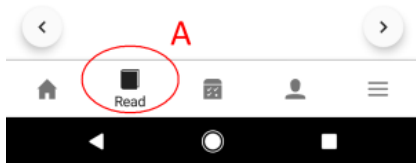

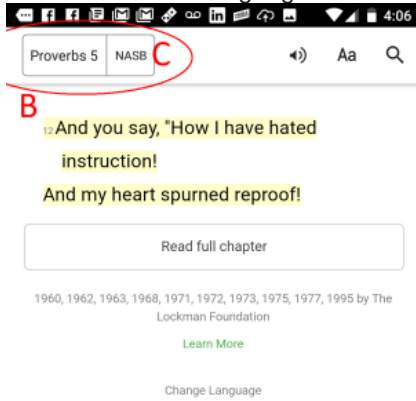

2. Now that it is installed. Open it (Click on "Open")

3.

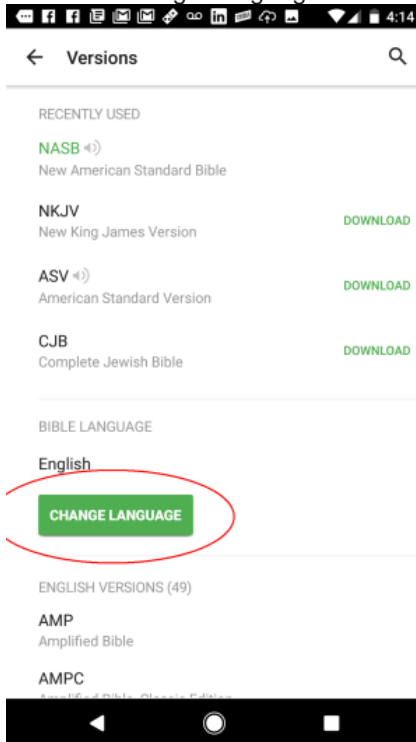

A. Click on the little Bible icon at the bottom that says "Read"

B. Click on a book of the Bible, choose Proverbs or John... or whatever

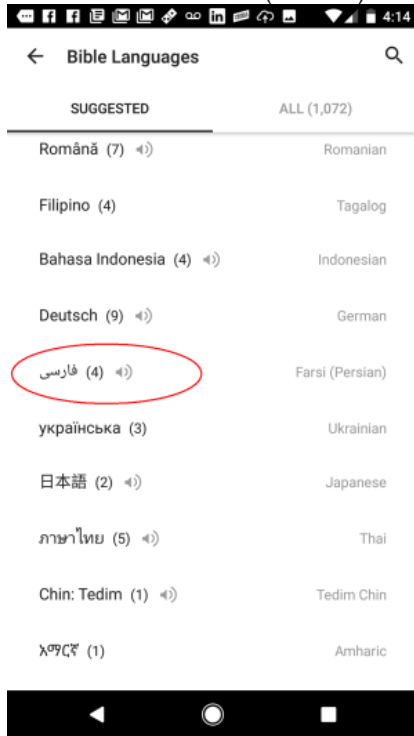

C. Choose which language. Here I have NASB which is English. I will show you below how to select Farsi.

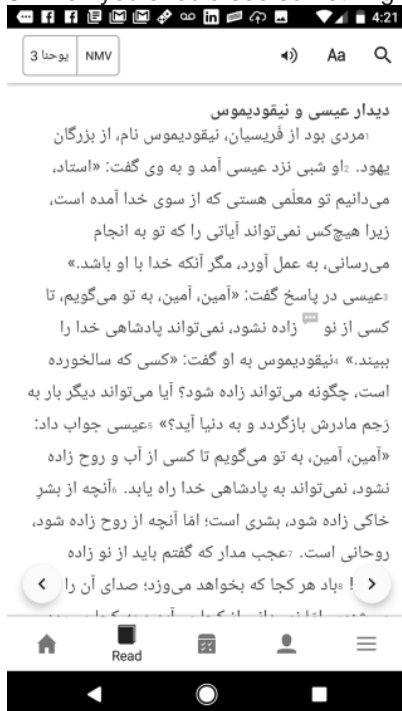

4. When you click the "C" box you will get this-  
Click on "Change Language"

5. Then click on "Farsi (Persian)" language. Or, whichever one you want...

6. Then you should see something like this-

Let me know if you have any problems and I can help you over the phone. Or, ask your son for help :) See you Sunday! - Erv
